A NOTE FROM OUR FOUNDER

"We Create. We Strategize. We Elevate." Your website should say the same from the very first click.

Dear GFX-T team,

Thank you for choosing OBD AI Solutions. Your website has been developed from the company profile, content, photos and logos you provided. All 7 pages are complete, and we are now finishing the final details.

We would also like to address the deployment charges. Deployment costs were not communicated to you clearly at the start, and that was our oversight. We have therefore **waived the deployment fee in full**. Setting up your domain, hosting, SSL and one professional mailbox is included at no additional charge.

This pack sets out the next steps. If you have any questions, we will be glad to help.

Kind regards,

Omer Bin Dawood

CEO & Founder, OBD AI Solutions · AI Engineer, DevNeuron (CA, USA)
